Cell Phone # _____ Email _____

If you are adding a **CO-OWNER OR WILLED TO**, fill out and send the **CO-OWNER / WILLED TO ADDENDUM SHEET**. (It is an additional \$20.00)
(This form can be found on our website on the FORMS page.)

Has your horse been DNA tested? You will receive a laminated copy of the DNA test/s with your new registration certificate.
► Look at the bottom right side of your Registration Certificate...does it say "DNA: On File"? If not, your horse probably does not have DNA markers. *DNA is required for all horses of Friesian heritage, before their offspring can be registered.

► **IMPORTANT TEST FOR BREEDING HORSES** Dwarfism & Hydrocephalus are dangerous genetic abnormalities that are common (30%) in Friesians and Friesian crossbreds. It is only if you breed this horse that carrier status matters. If you breed to another carrier parent, the foal has a 1 in 4 (25%) chance of having dwarfism or hydrocephalus. Being a carrier **DOES NOT** affect the health of a horse! (See HH website)

Simply pull (do not cut) 30 to 40 hairs from your horses mane or tail and tape them in the middle on the back of this page.

Fold this page in thirds so it covers the hair.

***DO NOT TAPE OR TOUCH THE ROOTS. PLEASE DO NOT PUT HAIR IN A PLASTIC BAG.**
