FRIESIAN Heritage Horse & Sporthorse International HH

Transfer of Ownership Form

Please return the horse's **Original Registration Certificate** along with form and fees.
Transfer time is a good time to add DNA testing (see information at the bottom of this page).
For added protection, we strongly recommend that the original certificate be returned to HH via certified mail.
You can also submit new photos for the database and add microchip numbers, or lifetime numbers for IFSHA, USEF & USDF.

Send completed form, original registration certificate and payment in US dollars.

Optional►☐ Bill me by PayPal (small PP fee will be added)

☐ **Transfer fee without DNA testing $30** ☐ **Transfer fee with DNA testing $60**

Mail to: Heritage Horse International, 1266 150th Avenue, Ogilvie, MN 56358

PLEASE PRINT-New Co-Owner's Name Clearly_____
A Co-Owner is typically not a family member.

Co-Owner's Signature_____ **Date**_____

Has your horse been DNA tested?

Look at the bottom right side of your Registration Certificate…does it say "DNA: On File"? If not, your horse probably has not been tested. You can order DNA at the time of transfer and, along with your new certificate, you will receive a laminated copy of the DNA markers.

Simply pull 30 to 40 hairs from your horses mane or tail and tape them in the middle on the back of this page.
Fold this page in thirds so it covers the hair.
***DO NOT TAPE OR TOUCH THE ROOTS. PLEASE DO NOT PUT HAIR IN A PLASTIC BAG.**

*DNA is required for all horses of Friesian heritage, before their offspring can be registered. DNA is the industry standard for all credible registries. Some show circuits, require DNA before you can show. Comparing DNA from an offspring to its parent(s) is the only valid way to determine ancestry. It is essential to maintain unbroken DNA links, through the generations, in order to authenticate bloodlines.
