## G DECLARATION OF CERTIFICATION:

This registry offers different types of registration certificates, as well as a recorded certificate for horses not allowed to double register. **The fee is \$40 (U.S. Dollars) per horse** for a horse's initial registration, regardless of the type of certificate being applied for.

| Basic Registration (\$40)  |   |
|--|---|
| <b>Crossbred Friesian Certificates</b>   | <b>Purebred Friesian Certificates</b>                   |
| <input type="checkbox"/> Heritage Horse Registration (25% to 99.9% Friesian ancestry)  | <input type="checkbox"/> Purebred Friesian Registration |
| <input type="checkbox"/> Recorded Certificate - This certificate is for horses of 25% to 100% Friesian ancestry who are already registered elsewhere and not allowed to double register. |   |

| Advanced Registration Options (\$40)  |  |
|---|--|
| <b>*The options listed below are available to horses who have completed a HH recognized inspection with a qualifying score and/or have achieved specific requirements in open competition. Please see our website at <a href="http://www.heritagehorse.com">www.heritagehorse.com</a> for further details.</b>                          |  |

|   | <input type="checkbox"/> Purebred Friesian - Utility Designated          |
| <input type="checkbox"/> Heritage Warmblood Registration—This classification of registration is for horses who are <b>NOT</b> sired by a purebred Friesian parent. To qualify for Heritage Warmblood Registration, the horse must meet with strict inspection criteria, must be a minimum of 25% Friesian blood and must be DNA tested. |  |

\*Horses may hold only one type of certificate at a time. Future upgrades of certificates are optional and require an upgrade fee of \$20 and a "Change of Certificate" form, which can be found on our website at [www.friesianheritage.com](http://www.friesianheritage.com). The original certificate issued must be returned to HH, via certified mail, before HH will grant the upgraded certificate. Please note that registration options and requirements may be changed, added or eliminated, upon review, as deemed necessary by the Council Members of the HH.

## H DNA PARENT VERIFICATION REQUIREMENTS

All owners are strongly encouraged to DNA test their horses of Friesian ancestry and submit the results to HH, but it is not required for all horses at this time. When a horse does not have DNA on file, "NOF" will be written on their papers to indicate that DNA testing has not been done on that particular horse. All horses of Friesian ancestry, who are registered with HH, must have DNA on file (with HH) before their offspring can be registered with HH. DNA testing is required for all horses applying for Heritage Warmblood registration.

If your horse is already DNA tested through UC Davis, either individually or with another registry, please supply the UC Davis case number and a copy of the DNA report for your horse.

- I am supplying HH with a copy of Parent Verification DNA test, UC Davis Case # \_\_\_\_\_
- I have no DNA test to submit
- I wish to order a DNA marker/parentage test (please enclose an additional \$40 and see page 5)

## I HYPP REQUIREMENTS & GENETIC DEFECTS

All owners are strongly encouraged to HYPP test horses who have unknown lineage in their background or horses that are linked by pedigree to the American Quarter Horse, Impressive. When a horse is not tested, it will be stated on the papers. Foals from non-tested horses will NOT be registered until they are HYPP tested. These horses must be double negative (HYPP n/n), or have proof of a negative horse in the pedigree following Impressive in order to be registered. Please supply HH with a copy of the HYPP test results showing HYPP n/n status. It is the goal of the HH to eliminate genetic defects, whenever possible. Other genetic defect declarations may be required, if they are suspected. I am disclosing that this horse has or may have the genetic defect listed: None
