G HYPP REQUIREMENTS & GENETIC DEFECTS

All owners are strongly encouraged to HYPP test horses who have unknown lineage or horses that are related to the American Quarter Horse, Impressive. HYPP status will be noted on the papers. It is the goal of the HH to eliminate genetic defects (e.g., umbilical hernias, undescended testicle, club-feet, etc.), whenever possible. I am disclosing that this horse has or may have the genetic defect listed:

None OR Defect: _____

H OTHER CERTIFICATE TYPES:

Please read the guidelines for these Specialty Books on our website, under registration. Gypsians have a separate application.				
Specialty Breed Books▶	<input type="checkbox"/> Turbo Friesian	<input type="checkbox"/> Warlander Heritage	<input type="checkbox"/> Imperial Heritage	Baroque Pinto
Other Books▶	<input type="checkbox"/> F2 crossbred	<input type="checkbox"/> Heritage Pony	<input type="checkbox"/> Faux Friesian	<input type="checkbox"/> Heritage Warmblood
<input type="checkbox"/> Recorded Certificate - This option is for horses who are already registered with a registry that does not allow double registration.				
*HH offers certificates that reflect achievements. They are available to horses who have completed a HH recognized inspection with a qualifying score and/or have achieved specific requirements in open competition. Please submit copies of inspection results or show scores to be considered for advanced registration. Call or see www.HeritageHorse.com for further details.				

I DECLARATION OF OWNERSHIP:

If you PURCHASED the horse being registered, you may send us proof of ownership instead, of obtaining the breeders' signatures below. Example: papers in your name, bill of sale or canceled check. We also accept copies of other registries' paper-work with the signatures. If you BRED the horse, supply us with the information below ▼ If the stallion owner supplied you with a different page or form, please send.

DNA & HAIR SAMPLE PAGE

Horse's name must be written in the box below ▼

DNA has become the industry standard for all credible registries. Some show circuits, such as International Friesian Show Horse Association (IFSHA), require DNA before you can show. It is important to know that there is no test to determine if a horse is of a particular breed. Therefore, comparing DNA from an offspring to its parent(s) is the only valid way to determine ancestry. It is essential to maintain unbroken DNA links, through the generations, in order to preserve and authenticate a bloodline. Beware of registries that DNA test without parent verification. DNA markers alone, without the parent verification, cannot substantiate lineage.

K DNA PARENT VERIFICATION REQUIREMENTS

HH strongly recommends that all horses of Friesian Heritage be DNA tested at the time of registration, so it can be noted on the registration certificate. When a horse has been DNA tested, "On File" will be written on their papers. When they have not been DNA tested, "Not Verified" will be written on their papers. Although DNA is not required for all horses at this time, it is required for Purebred Friesians, horses **showing IFSHA** and breeding horses.

◆ **Purebred Friesians:** Must be DNA tested with HH **OR** registered and DNA tested with another credible Friesian registry **OR** you may supply us with a copy of existing DNA markers.

◆ **Sires & Dams:** All breeding horses of Friesian ancestry, who are registered with HH, must have DNA on file with HH, before their offspring can be registered with HH.

Please choose one of the following:

- Horse has been previously DNA tested and I am supplying a copy of the markers and/or UC Davis case number: _____
- I WISH TO ORDER** a DNA marker/parentage test, along with registration, for the total price of \$80.00.
The owner will be mailed a laminated copy of the results, at the time the registration certificate is mailed.
- I DO NOT WISH** to order DNA testing at this time. I am supplying the required hair sample to be placed on file with HH

Note: In order to conduct parent verification tests, a \$15 DNA conversion fee may be required for any horses DNA tested at any lab other than UC Davis. In some cases, a conversion fee(s) may also be required on the sire and/or dam of horse being registered. All hair submitted becomes the property of HH.

A HAIR SAMPLE IS MANDATORY!

Directions: Pull 40 to 50 mane or tail hairs out by the roots.
Do NOT touch or place tape on root ends.

◀ **Roots of hair must be placed in this white box.**
The roots should not touch the ink lines.

Tape the shafts of the hair, coil if necessary.

Please DO NOT put hair inside of a plastic bag.

Fold bottom of this sheet upward to cover the hair.
